Architectural Bronze Studio, Inc. founded in 1935 is one of the nation's truly creative and versatile metalworking firms. Our artist-craftsmen are proud members of a unique fraternity of craftsmen who take pride in their work and their products.

In order to meet the many different demands of our clients, we are equipped to produce ornamental products, which incorporate virtually all types of materials and fabricating techniques. What ever the need the products created by our craftsmen can range from the miniature to the massive.

To meet the challenging demands of our clients, our staff includes designers, illuminating engineers, machinist, metal finishers, sculptors, pattern makers and installers. As a result, we are prepared to handle any assignment of commission and to co-operate and work with architects, interior designers and contractors, fabricating to exact specifications, in any area of ornamental craftsmanship for institutional, religious, commercial or residential use.
